Competent Authority:	The Central Bank of Ireland is responsible for supervising AIB in relation to this Key Information Document
Date of production of the Key Information Document:	1st January 2023

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type	Over the Counter Derivative (OTC) – Interest Rate Swap
Term	The length of the Interest Rate Swap will depend on how long you wish to exchange your interest payments with AIB and will be agreed before you enter into the Interest Rate Swap. The Interest Rate Swap is a bilateral agreement that cannot ordinarily be terminated unilaterally by either you or AIB. The ability to transact an Interest Rate Swap is subject to credit approval from your primary relationship team in AIB.
Objectives	<p>The objective of this product is to provide you with protection in a rising interest rate environment and to help you to manage your cash flow more effectively as the maximum cost of interest payments is known.</p> <p>The product achieves its objective by AIB agreeing the terms of an OTC contract with you under which: (1) you agree to pay AIB a fixed interest amount and (2) in return, AIB agrees to pay you a floating interest amount. The fixed interest amount is paid on periodic dates and is calculated on the basis of a fixed per annum interest rate applied to a notional amount. The floating interest amount is typically paid on the same periodic dates and is calculated on the basis of an interest rate reference value, which may fluctuate over time, applied to the notional amount. Typically:</p> <ul style="list-style-type: none">• if the floating interest amount is greater than the fixed interest amount, the amount you receive is the difference between the two;• if the fixed interest amount is greater than or equal to the floating interest amount, you will receive nothing and, instead, will pay AIB the difference between the two. <p>The exact terms of the Interest Rate Swap are flexible in terms of tenor and structure. It can be adjusted to suit your specific requirements.</p> <p>Under an Interest Rate Swap you commit to paying AIB the fixed rate of interest even where the reference value for the floating rate of interest decreases.</p>
Intended Retail Investor	This product is intended for retail clients who wish to mitigate the risk of an increase in interest payments. An Interest Rate Swap does not affect the terms of the underlying loan facility. In particular it does not affect the borrower's obligations to repay the principal of the loan, to pay interest on the loan to the lender or to pay fees and charges to the lender, in each case in accordance with the terms and conditions of the underlying loan facility.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class.

The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you terminate it at an early stage and you may get back less. You may not be able to end your product early. You may have to pay significant extra costs to end your product early.

Key Information Document

If you cannot fulfil your contract, you may not be able to terminate it easily before maturity or you may have to end your product at a price that significantly impacts on the performance of your product. In some circumstances you may be required to make payments to pay for losses. **The total loss you may incur may be significant.** This product does not include any protection from future market performance so you could incur significant losses. In the event that AIB is not able to pay out what is owed, you could incur significant losses.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.** The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 5 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily terminated early. If you terminated the product earlier than the agreed maturity date you may have to pay extra costs.

Scenarios below are based on an Interest Rate Swap assuming a notional amount of EUR 10,000 and a maturity of 5 years. The table shows the money you could get back or pay after costs under different performance scenarios.

Recommended Holding Period: This product is designed to be held until maturity.			
Notional Amount EUR 10,000			
Scenarios		1 Year	5 Year
Stress	What you might get back after costs	-EUR 940	-EUR 940
	Average return each year*	-9.4%	-9.4%
Unfavourable	What you might get back after costs	-EUR 590	-EUR 640
	Average return each year*	-5.9%	-6.4%
Moderate	What you might get back after costs	-EUR 150	-EUR 240
	Average return each year*	-1.5%	-2.4%
Favourable	What you might get back after costs	EUR 700	EUR 570
	Average return each year*	7.0%	5.7%

*The potential return/loss is calculated as a percentage over the notional amount.

What happens if AIB is unable to pay out?

AIB is a member of the Irish compensation scheme established under the Investor Compensation Act 1998 (the 1998 Act). The 1998 Act provides for the establishment of a compensation scheme and payment, in certain circumstances, of compensation to certain clients (defined in the 1998 Act as eligible investors) of authorised investment firms. You may be entitled to compensation from this scheme if we are unable to meet any of our liabilities to you. Where an entitlement to compensation is established, the compensation payable will be 90% of your net loss or EUR 20,000 (whichever is the lesser).

What are the costs?

The person advising on this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount. The costs below may vary depending on the underlying parameters of the transactions.

We have assumed:

- The notional amount is EUR 10,000
- The product cannot be held longer than agreed maturity date so other holding periods are not applicable

	If you end after 5 years (i.e. you hold the product until the scheduled maturity date) (where applicable)
Total Costs	EUR 100
Cost impact *	1%

*This illustrates how costs reduce your return over the holding period.

Key Information Document

Composition of costs*

One-off costs upon entry or exit		Cost Impact
Entry costs	1% of the amount you pay in when entering this investment	EUR 100
Exit costs	We do not charge an exit fee for this product.	0%
Ongoing costs [taken each year]

Transaction costs	There are no transaction costs for this product.	0%
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0%

*This illustrates costs in relation to the notional value of the PRIIP.

How long should I hold it and can I take money out early?

Recommended holding period: This product cannot be sold or transferred easily. It is designed to be held to the agreed maturity date in order to match your investment requirement. Hence, there is no recommended holding period. This product can only be matured on the date(s) agreed with AIB. Early termination may occur in the event of a default by either you or AIB.

How can I complain?

You can make a complaint by:

- Contacting your AIB Primary Relationship Manager or assigned AIB Customer Treasury Services Relationship Manager on +353 1 772 4005 or by writing to Allied Irish Banks, p.l.c., AIB Customer Treasury Services, 10 Molesworth Street, Dublin 2. You can also make a complaint via our website aib.ie/fxcentre.
- If you are still not satisfied and you come within the jurisdiction of the Financial Services and Pensions Ombudsman, you can take your complaint to:
 - The Financial Services and Pensions Ombudsman, Lincoln House, Lincoln Place, Dublin 2, D02 VH2. Phone: +353 1 567 7000; Email: info@fspo.ie; Website: www.fspo.ie

Other relevant information

We will provide you with further documentation relating to a transaction that you enter into with us including a confirmation with a breakdown of costs and charges and an annual statement. We have used a notional amount of EUR 10,000 in this document for simplicity and ease of comparison, however, please note this is not representative of typical notional amount for this product which would generally exceed EUR 1,000,000.
